

Deep Freeze for Healthcare

Protect your patients sensitive information while eliminating costly interruptions and tedious IT issues by up to 63% across your organization.

As an IT Manager for a healthcare provider, I have noticed a dramatic difference in the amount of maintenance required on these systems. I would highly recommend this product to other IT departments looking for an easy-to-use solution for maintaining their terminal server

Jen Blackledge
The Center, Orthopaedic & Neurosurgical Care & Research

Faronics Deep Freeze is assisting our Healthcare customers with HIPAA Compliance and patient confidentiality.

Deep Freeze guarantees 100% workstation recovery on every restart, preserving your desired configurations and settings.

Just What The Doctor Ordered

Our healthcare customers agree, Deep Freeze is the best way to protect confidential patient data, while providing stable workstations to all users.

Deep Freeze's Core Features:

- ▣ "Reboot to Restore" technology means secure patient data and zero disruption on doctor/nurse laptops, COWs, and more.
- ▣ Reduce dependency on the IT support team. Just "reboot" to get rid of the unwanted/ unwelcome changes.
- ▣ Guaranteed 100% workstation recovery upon restart.
- ▣ Maintain the workstation's configured state all the time.
- ▣ Centrally deploy, setup and manage with Enterprise Console.

Recommended For All Computers

Deep Freeze is designed to work on almost any existing computer system, so you'll never need to upgrade your hardware.

Designed to work on:

- ▣ Patient laptop carts (Computer on Wheels).
- ▣ Staff/ nurse station computers
- ▣ Staff training and conference room computers
- ▣ Medical device computers (running Windows OS)
- ▣ Patient registration computers
- ▣ Thin clients with Citrix, VMWare, Microsoft, etc.
