

Overview

The purpose of this guide is to get Anti-Executable installed and running on your network without any issues. It provides a reference for many common questions that arise when installing and using this software.

Anti-Executable Resources

User guides, video tutorials, white papers, and other documentation on Anti-Executable Enterprise are available in the Faronics Content Library at <http://www.faronics.com/library>.

What is Anti-Executable?

Faronics Anti-Executable ensures workstation protection and productivity by allowing only approved programs to run. Anti-Executable prevents malware, unwanted or unlicensed programs from running.

System Requirements

Anti-Executable Enterprise requires Faronics Core Console to be installed.

Faronics Core Console Requirements

1. .NET 3.5 SP1
2. MMC 3.0
3. Microsoft SQL Server 2005 SP2 or Express or Microsoft SQL Server 2008 SP1

The above-mentioned components are freely downloadable from Microsoft, but are not redistributable by Faronics. However, the Faronics Core Console installer will detect which of the components are not installed and will automatically launch a web browser to the appropriate Microsoft page to download each component.

Anti-Executable Enterprise Requirements

The Anti-Executable Loadin can be installed on computers where Faronics Core Console can be installed. On the workstation, Anti-Executable can be installed on the following operating systems:

- 32-bit edition of Windows XP SP3 and 64-bit edition of Windows XP SP2.
- 32- and 64-bit editions of Windows Server 2003, Windows Server 2008, Windows Vista, and Windows 7.

Installing Faronics Core Console and Anti-Executable

Installing Faronics Core Console

To install Faronics Core Console, complete the following steps:

1. Double-click the *Faronics Core Console.exe* file to begin the installation process.
2. Read and accept the *License Agreement*. Click *Next* to continue.
3. Specify the install location and click *Next*. The default is *C:\Program Files\Faronics Core 3\ Console*. Select the *Add a shortcut to the desktop* check box to add a shortcut. Click *Next*.
4. Click *Install* to start the installation.
5. Click *Finish* when the installation is completed. Faronics Core Console is launched automatically to complete the installation process.

Installing Anti-Executable

To install Anti-Executable Enterprise, complete the following steps:

1. Once Faronics Core Console is installed, the *Faronics Core Agent Installer* must be created from within Faronics Core Console.
2. Install the *Faronics Core Agent* on to the client workstations where Faronics Anti-Executable Enterprise client is to be deployed. The *Faronics Core Agent* allows Faronics Core Console to communicate with the workstation and therefore to deploy Faronics Anti-Executable Enterprise to the workstation. Refer to the Faronics Core user guide for deployment options.
3. Run the *Anti-Executable Loadin* installer on the computer that hosts Faronics Core Console.
4. Deploy Faronics Anti-Executable Enterprise onto the desired workstations from Faronics Core Console. Right-click on at least one workstation from the list in Faronics Core Console and select *Configure Workstation > Advanced > Anti-Executable > Install/Upgrade Anti-Executable*.

The evaluation version of Anti-Executable Enterprise expires 30 days after installation. Anti-Executable will not protect your computer when it is expired.

Background information regarding Faronics Core and Product Loadins

Faronics Core supports the monitoring and management of multiple workstations from a central location. It acts as a central database repository for reporting, communication, and product control.

While Faronics Core implements basic functionality shared across multiple products, its primary role is to serve as a common platform for the management of other Faronics products.

The basic functionality of Faronics Core is extended by installing product Loadins. Loadins extend Console functionality with new, product-specific status, actions, and reports.

The Anti-Executable Enterprise User Guide is available at: <http://www.faronics.com/library>

Free technical support is available to you during your evaluation period. Contact our Technical Support department at 800-943-6422 or through <http://www.faronics.com/support>
