College Ashram

The Ashram College is a Dutch high school located in Alphen aan den Rijn and Nieuwkoop. It was established in 1929. The school offers VWO (literally: pre-university secondary education) including the classical languages Latin and Greek, HAVO (literally: higher general continued education) and VMBO-T (literally: preparatory middle-level vocational education theoretical). Everything that the Ashram College does is based on Catholic values.

Mr Johan de Graaf from the IT Department at the college shares his experience with us of the installation of Faronics Anti-Virus on almost 500 working stations.

Faronics
Simplifying Computer Management

"

"Anti-Virus saves us many hours of work preventing virus infections and we can run the updates without having to disable deepfreeze..."

— Mr Johan de Graaf
from the IT department at
Ashram college

- Light, use little resources

- Central Management

- Fast scan at over 2200 MB/second

- Central Management

- Integration with Deep Freeze for automated updates

ANTI-VIRUS

What is your technological environment? How many employees/users do you have? How many workstations?

At the Ashram college in Alphen ann

den Rijn we have 2100 students, 200

employees and more than 500 work

stations, and 15 servers.

What were the major issues that you faced in your day-to-day operations before implementing Faronics AV?

We also use Deep Freeze and we had

to periodically thaw the machines to

update the virus definitions which is

time consuming.

How has Faronics Anti-Virus helped

your IT environment?

We are using Faronics Anti-Virus to prevent infections on the network, to prevent viruses on students usb-sticks and to have the automated updates with Deep Freeze.

What was the process of evaluation

that led you to choose Faronics AV?

We heard about Faronics Anti-Virus and tested it beacuse it works perfectly with Deep Freeze, there is no need to thaw the machines to update the virus definitions.

Do you use any other Faronics products at the moment?

"We also use DeepFreeze, a very good program to use for all educational organizations."
