CHROMEBOOK
MDM

SYSTEM MONITORING AND
MANAGEMENT FOR
SCHOOLS DONE RIGHT

Backed by technology that is trusted by over **30,000 IT managers** worldwide

Chromebook MDM enables IT administrators to efficiently manage Chromebook devices across multiple classrooms, labs and schools within a district. The intuitive cloud-based console allows for full control and visibility on all Chromebook activity in a school environment. With an array of robust tools at their disposal, IT teams can maintain secure devices while also giving students and faculty the flexibility to do and achieve more with technology.

Chromebook MDM integrates seamlessly with Google G Suite to help you control your devices through the Deep Freeze Cloud platform's centralized management console.

EVERYTHING YOU NEED TO MANAGE A CHROMEBOOK-BASED EDUCATIONAL INSTITUTION

DEVICE MONITORING

Get a detailed list of all Chromebook devices on your network sorted by computer model, group, user, device location, recent sync, remaining battery life, and other info.

MANAGEMENT MADE EASY

Ability to disable, re-enable or completely deprovision Chromebooks in your environment, as well as move devices across different organizational units.

ENFORCE POLICIES

Establish user policies for multiple groups, and set specific home, school, or office policy measures for different groups.

COMPREHENSIVE DASHBOARD

Track and monitor device activity such as number of devices enrolled, breakdown by OS version, last time users were seen, and more.

SET WORK SCHEDULES

Chromebook MDM allows for a seamless transition between a work and home environment through effective policy management.

ADVANCED FILTERING

Block websites, filter YouTube, and enforce safe search mode across your entire network environment.

Cloud Console
Manage the Chromebooks in your environment remotely from a centralized cloud-based console.

Send Messages
IT administrators can send messages directly to individual Chromebooks.

G Suite Integration
Syncs with G Suite to integrate seamlessly with Google Admin to view and manage organizational units (OUs) from Deep Freeze Cloud.

Device Overview
Track various Chromebook properties including computer model, group, user, device location, recent sync, remaining battery life, and other details.

Visual Dashboard
Dashboard widgets displaying devices by platform, enrollment numbers, OS version, and more.

Move Device OU
Reassign Chromebook devices to different Organizational Units (OU) within your network.

Filter Settings
Block direct IP access and enable Safe Search mode for Google, Yahoo, and Bing across your organization.

Groups and OU Assignments
Create, edit, copy or delete Chromebook groups and assign them to Organizational Units (OU)

YouTube Filtering
Block YouTube videos, categories or channels, as well as disable comments and hide the recommended videos sidebar.

Disable/Re-enable Devices
Activate or deactivate individual Chromebooks in your environment.

Website Filtering
Set up policy activated whitelists and blacklists to control which websites users can visit at any given time.

Deprovision Devices
Remove Chromebook from circulation along with associated licenses.

Assign Work/Home Policy
Set a specific IP address range or time and day schedule for workplace, school or home policies to be in effect.
