

# CLOUD SYNC

YOUR THAWSPACE IN THE CLOUD

Critical user data is retained and synced to the cloud while your

## **COMPUTER REMAINS PROTECTED**

Faronics Cloud Sync ensures you never lose your documents, especially on computers protected by Deep Freeze.

Our system downloads only the files you request and automatically sync them back to your preferred cloud storage service.

Gone are the days of saving your work to shared networks or vulnerable USB drives.

For Deep Freeze customers, in the event the computer is frozen, Cloud Sync will ensure that your data is protected by uploading files to the cloud before the system is restarted.

ONEDRIVE

## **MULTI-USER SUPPORT**

Individual users can save files to their cloud storage accounts, allowing multi-user computers to keep data separate and prevent unauthorized data access.

## **ELIMINATE THE NEED FOR EXTERNAL DRIVES**

Access and retain user data on Frozen computers without the need for Thawed partitions, network drives, or USB flash drives.

## **REDUCE EXPENSIVE IT COSTS**

Eliminate the need of managing expensive network storage and backing up user data on file servers.

## **SECURE DATA FROM THEFT**

No data is retained on the local drive once a file is saved, ensuring that stored files are never at risk of data theft.

## **USE DEFAULT WINDOWS FOLDERS**

Files can be automatically synced from default Windows File Explorer folders such as Desktop, Document, or Downloads.

## **EXTRA LAYER OF SECURITY**

In order to access files, users must provide their preferred cloud drive login information and a specific email credential

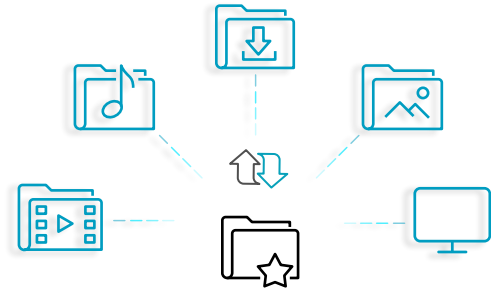

## HOW CLOUD SYNC WORKS

Cloud Sync makes it easier for users to access their files without the need of Deep Freeze ThawSpaces or creating Thawed partitions. It leverages Dropbox, Google Drive, or OneDrive empowering end-users to automatically save their data to a supported cloud storage service.

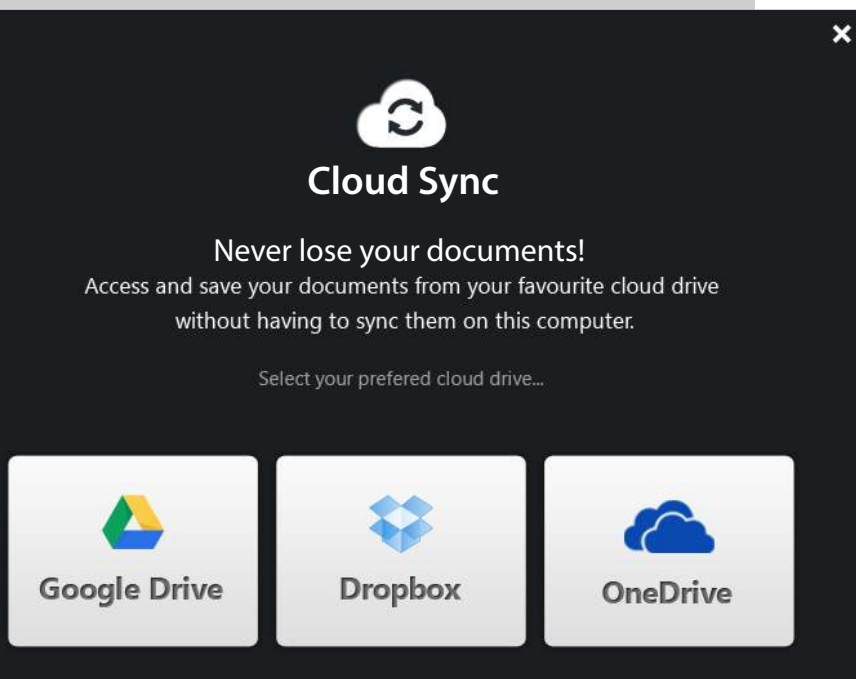

In the event the computer is protected by Deep Freeze, Cloud Sync ensures the data will survive a restart until it is successfully uploaded to your preferred cloud drive.

Users will be presented with this screen upon logging into the computer to select their preferred cloud storage service.

## CHOOSE WHAT TO SYNC

Administrators can choose the specific folders they wish to sync, such as Documents, Desktop, Download, and more. Cloud Sync can give users access to any synced folder directly from the cloud.

### **Blue Cloud**

*The blue cloud icon shows that the file is available to download.*

### **Orange Sync**

*The orange sync icon shows your file syncing to your cloud drive.*

### **Green Check**

*The green check icon shows your file has finished syncing.*
