

ANTI-VIRUS

Comprehensive Protection from
Malware and Security Threats

Proven Protection to Defend your Assets and Business

Keeping your organization safe from increasingly sophisticated security threats can be overwhelming.

The award-winning Faronics Anti-Virus security solution assures that your IT assets are in safe hands. It not only provides exceptional virus, spyware and rootkit detection, but also includes firewall protection for comprehensive, rock-solid security.

▣ ABSOLUTE PROTECTION

Best malware detection rate with the most advanced technology to combat millions of threats and detect the most complicated malware without slowing down your devices.

▣ LIGHT AND FAST

Incredibly powerful and ultra-fast at the same time offers the most efficient use of memory, disk and CPU usage with complete protection.

▣ DEEP FREEZE INTEGRATION

Out-of-the-box compatibility with Faronics Deep Freeze ensures virus definition files are always updated even when the computer is in a Frozen state.

▣ PREVENT MALWARE ATTACKS

Top-performing anti-malware engine to closely monitor your active apps and take instant action to ensure no malware goes undetected, without any false alarms.

▣ THWART NETWORK ATTACKS

The built-in firewall provides protection against potentially devastating attacks that originate from the internet.

▣ MANAGE WITH A CENTRAL CONSOLE

Management of deployment and configuration is made possible via a single web-based console.

Did You Know?

Nearly **1 million** new malware threats are released every day.

- CNN

Deep Freeze Cloud
provides one console to
Secure, Update and Manage
your computers.

Key Features

COMPREHENSIVE PROTECTION

Top-performing anti-malware engine that closely monitors your active apps and yet offers the most efficient use of memory, disk and CPU usage.

FIREWALL PROTECTION

Built-in firewall can be used to restrict access of specific programs and protocols to certain networks, computers, and IP addresses.

REAL-TIME ALERTS

Real-time alerts in the console, via email or the mobile app when a virus is found or when running older definitions.

CUSTOM POLICIES

Configure multiple policies to protect your endpoints across multiple locations from the central management console.

DASHBOARD & WIDGETS

Manage and track your computers with antivirus threat detection history, frequently detected threats and most infected machines using dynamic widgets.

DETAILED REPORTS

Reports on protection status, scan history, quarantined files, firewall network traffic and much more with an instant click.

CLOUD MANAGEMENT

Available with hosted console to make deployment, configuration, and management of updates a breeze.

DEEP FREEZE COMPATIBLE

Integration with Faronics Deep Freeze ensures effortless antivirus definition file updates on Frozen workstations.

CACHE SERVER

Use a Cache Server to download antivirus definition updates on a centralized computer and distribute them to other computers across the network.

Faronics Anti-Virus

has been a godsend with low impact on system resources and full integration with Deep Freeze. It's performed better than other antivirus solutions out there.

- Augusta County Public Schools

Did You Know?

The average cyber crime incident costs companies

\$12 million

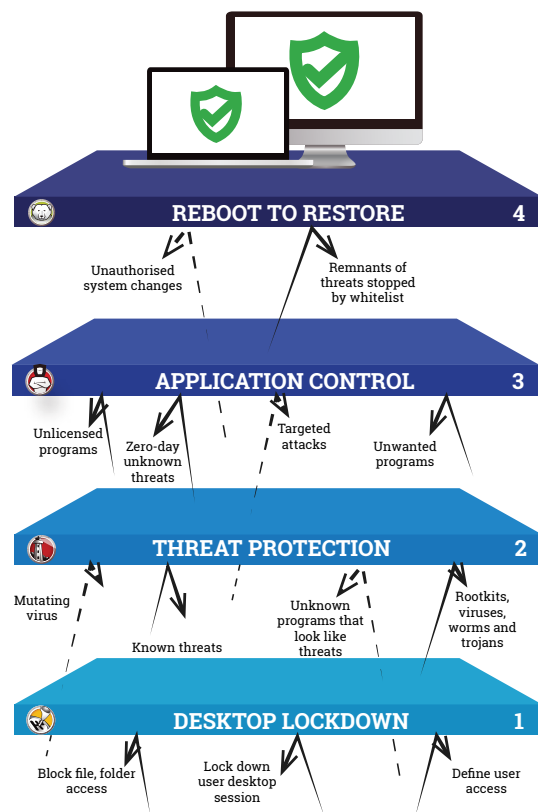

- CNN

Not only is **Faronics Anti-Virus** the only solution which is fully compatible with Deep Freeze, but it is also faster, more network efficient and more effective against malware.

- Ballston Spa Central School District

Layered Security by Faronics

Comprehensive layered security for defence against today's toughest threats.

❑ FARONICS DEEP FREEZE

Patented reboot-to-restore technology to freeze your endpoints to the desired state. Restore from any unexpected changes with a simple reboot.

❑ FARONICS ANTI-EXECUTABLE

Protect users from unknown threats such as zero-day attacks, mutating malware, advanced persistent threats and sophisticated attacks by allowing only authorized software.

❑ FARONICS ANTI-VIRUS

Top-performing anti-malware engine to closely monitor active apps and take instance action to ensure no malware goes undetected, without any false alarms.

❑ FARONICS WINSELECT

Provide only the intended Windows functionality and easily control end-users' Windows experience without having to deal with GPOs. Prevent unauthorized usage and close security gaps.

SYSTEM REQUIREMENTS

Windows 7 (32-bit or 64-bit)

Windows 8.1 (32-bit or 64-bit)

Windows 10 (32-bit or 64-bit)

VIRUS BULLETIN'S VB100 AWARD 2020

Faronics Anti-Virus has been awarded the illustrious VB100 certification by Virus Bulletin. For over 20 years, Virus Bulletin has been an independent testing body that evaluates and benchmarks security software. The VB100 award is earned by products that block all files from recently reported malware "in the wild", while generating no false positives when scanning Virus Bulletin's large and regularly updated collection of clean files.
