

CLOUD SYNC

Automatically Sync Files to
Dropbox, Google Drive or
OneDrive with Cloud Sync

Deep Freeze supports Dropbox, Google Drive and OneDrive to automatically save your work on Frozen computers

Faronics Cloud Sync ensures you never lose your documents, especially on computers protected by Deep Freeze. Download only required documents and automatically sync them back to your cloud drive. Gone are the days of saving your work to network drives or on thumb drives.

❑ ALL USER DATA IN CLOUD

User data can now be directly saved to the cloud. Multiple users can use the same Windows credentials and still keep their data private.

❑ REDUCE EXPENSIVE IT COSTS

Eliminate the need to manage and back up user data on file servers and expensive network storage.

❑ SAVE NETWORK BANDWIDTH

Mitigates the need to sync gigabytes of data by ensuring that only the files the user needs get downloaded.

❑ SAY GOODBYE TO EXTERNAL DRIVES

Access and retain user data on Frozen computers without the need for Thawed partitions, network drives, or thumb drives.

❑ SECURE DATA FROM THEFT

No data is retained on the local drive once a file is saved, ensuring that stored files are never at a risk of data theft.

❑ PROVIDE AUTHENTICATED ACCESS

Compel users to provide their cloud drive credentials upon logging in to the computer and optionally enforce specific email credentials.

Did You Know?

Consumers will store more than a third of their digital content in the cloud by 2016. Worldwide consumer digital storage needs will grow from 329 exabytes in 2011 to 4.1 zettabytes in 2016.

Key Features

POPULAR CLOUD DRIVES SUPPORT

Cloud Sync supports Dropbox, Google Drive and OneDrive for seamless automatic syncing.

DATA SECURITY

Ensure no data is retained on local drives once a file is uploaded to the cloud, preventing the risk of data theft on any computer.

MULTI-USER SECURITY

Since files are tied to individual cloud storage accounts, this prevents multiple users using the same computer from accessing each other's files.

DEFAULT WINDOWS FOLDERS

Files can be automatically synced from default Windows File Explorer folders such as Desktop, Document, or Downloads.

REDUCE NETWORK STORAGE

Eliminate the need to manage and back up user data on file servers and expensive network storage by utilizing cloud storage services.

INCREASE LOCAL STORAGE

Conserve local hard drive space and eliminate the need for expensive network storage by using cloud drive providers to save files and maintain backups securely.

CLOUD FILE ACCESS

Easily access work files from your preferred cloud storage provider on any computer and eliminate the need for unsecured external drives.

THAWSPACE IN CLOUD

Cloud Sync makes it easier for users to access their files without the need for Deep Freeze ThawSpaces or creating Thawed partitions.

DEEP FREEZE INTEGRATION

Automatically upload files to the cloud, even in a Frozen state, to protect data during the Deep Freeze reboot-to-restore process.

Deep Freeze Cloud

has been vital to our environment and my team could not do without it. I have and would recommend it to everyone. At the end of the day, our investment has been very worth it and a great decision.

PREMIUM BUNDLE

With the Premium offering in Deep Freeze Cloud, Cloud Sync provides the option to save users data on a preferred cloud storage.

Cloud Sync Features

Cloud Sync eliminates the hassle of dealing with Deep Freeze ThawSpaces or creating Thawed partitions. It leverages Dropbox, Google Drive and OneDrive to empower end-users to automatically save their data to a supported cloud storage provider. In the event the computer is protected by Deep Freeze, the service ensures the data will survive a restart until it is successfully uploaded to the cloud drive. Users no longer need to carry thumb drives to save their work, they can instead automatically save their work directly to their preferred cloud drive.

Users will be presented with this screen upon logging in to the computer to select their preferred cloud drive.

Blue Cloud

The blue cloud icon shows that the file is available to download.

Orange Sync

The orange sync icon shows your file is syncing to your cloud drive.

Green Check

The green check icon shows your file has finished syncing

SYSTEM REQUIREMENTS

Windows 7 (32-bit or 64-bit)

Windows 8.1 (32-bit or 64-bit)

Windows 10 (32-bit or 64-bit)
