

DEEP FREEZE CLOUD

One Platform for Total Control
of your IT Assets

Deploy, Secure and Manage your Devices

Deep Freeze Cloud is a suite of products offered as a Software-as-a-Service (SaaS). In addition to patented reboot-to-restore, the platform offers asset management, software deployment, layered security, OS deployment, remote control, power management and more. Control all your IT assets from a single unified console, anytime, anywhere.

Available for:     

▣ PROTECT WITH DEEP FREEZE

Powerful reboot-to-restore protection makes computers indestructible. Remove unwelcome changes with a simple restart of the computer. Provide unrestricted access while maintaining software compliance.

▣ IMPROVE SECURITY AND IT EFFICIENCY

Allow your IT staff to spend less time on day-to-day troubleshooting by implementing a layered security approach that keeps your clients happy and ticket volumes low.

▣ GIVE GRANULAR ACCESS

Create secure sites for each location and assign granular user permissions so limited IT staff can manage their assigned device groups and perform authorized actions.

▣ PERFORM LIGHTNING FAST ACTIONS

Act instantly by performing on-demand actions such as installing applications, patches, or remoting to computers. Power on computers and perform maintenance tasks when necessary.

▣ PROVIDE REMOTE SUPPORT

Administer client devices from a simple web console or mobile app that requires no middleman server for remote control, application updates, patching, and a host of other functions.

▣ GAIN VISIBILITY WITH ANALYTICS

Make informed IT decisions by understanding how your devices and applications are being utilized. Identify anomalies in usage to ensure compliance.

Key Features

Deploy

SOFTWARE DEPLOYMENT

Build custom repositories, automate your maintenance, and customize your installs with custom apps and scripts.

PATCH MANAGEMENT

Simplify the complex task of delivering and managing Windows Updates to computers across your environment.

OS IMAGE DEPLOYMENT

Capture, deploy one golden image on varied hardware with an in-built modular file-based OS deployment feature.

REMOTE CONNECT

Web-based remote control for instant access to managed computers over the Internet.

Secure

DEEP FREEZE

Freeze your endpoints to the desired state. Restore from any unexpected changes with a simple reboot.

ANTI-VIRUS

Comprehensive protection with powerful Antivirus and Firewall with total integration with Deep Freeze for seamless updates.

APPLICATION CONTROL

Security beyond an antivirus by blocking unauthorized programs – whether malicious, unlicensed or simply unwanted – from ever executing.

KIOSK LOCKDOWN

Lockdown endpoints and create customized kiosks with comprehensive control over the Windows user experience.

Manage

ASSET MANAGEMENT

Generate detailed computer and application usage reports for compliance audits and decision-making purposes.

POWER SAVE

Reduce operating costs by eliminating unnecessary PC energy consumption with intelligent power savings and reporting.

CLOUD SYNC

Access and retain user data on Frozen computers without the need for Thawed partitions, network drives, or thumb drives.

MOBILE DEVICE MANAGEMENT

Integrated mobile device management solution for managing iOS, Android, and Chromebooks.

A SINGLE UNIFIED
CONSOLE THAT
DOES IT ALL !

Manage
