

# FARONICS CLOUD DEPLOY

## Lightning fast deployment of Applications, Windows Updates and Operating Systems

Faronics Deploy is the fastest and easiest way to deploy applications, patches, and operating systems to managed devices. Deploy also lets you take an inventory of your deployment and remote into your machines over the web.

### LIGHTNING FAST ACTIONS

Act instantly by performing **on-demand actions** such as installing applications, Windows patches, or remoteing to computers. Power on computers and perform maintenance tasks when necessary.

### STAY SECURE

In addition to patching Windows and application vulnerabilities, implement Faronics Anti-Virus for **comprehensive protection** from malware and security threats.

### SCALABLE CLOUD CONSOLE

Manage any number of computers independently without choking local resources or bandwidth with the decentralized **cloud-based** architecture

### REAL-TIME, INTUITIVE INTERFACE

The always-connected Control Grid makes managing your computers a **live-visual experience**. Accessibility options like Dark Mode and Enhanced Contrast make it easy on the eyes.

### CONTROL FROM ANYWHERE

Support your end users from anywhere in the world. Remote into computers, deploy software and update patches from a **single web-based console**. No middleman server is required.

### MULTI-PLATFORM CONTROL

Perform application updates, inventory devices, and remote over the web for **Windows and Mac** operating systems.

### Application Management

Set up, deploy and automate updates for any app instantly

### OS DEPLOYMENT

Fast, modular Os Deployment managed from the cloud

### INVENTORY AND ANALYTICS

Get a real-time hardware inventory report

### MANAGE macOS

Set up, deploy and automate updates for any app on macOS

### WINDOWS UPDATES

Automate discovery, testing, and deployment of Windows Updates

### REMOTE CONTROL

Remotely connect to endpoints and chat with users

### CONFIGURATION MANAGEMENT

Apply configuration changes to customize windows on the go

### ANTI-VIRUS AND FIREWALL

High performance antivirus with real-time management capabilities
