

# Seven Essential Ways to Manage Labs, Classrooms and Libraries Efficiently

## DEEP FREEZE ENTERPRISE

### Ultimate System Protection for Education Institutions

**Your Concern:** Students messing up your lab, classroom or library PCs/Macs? Tired of reimaging workstations and growing IT support tickets?

**Our Solution:** Our patented 'reboot to restore' technology maintains 100% system integrity and availability while lowering IT tickets by upto 63%. It prevents system degradation, eliminates reimaging issues and removes temp files, downloaded toolbars and malware.

## DEEP FREEZE CLOUD CONNECTOR

### Manage Your On-premise Deep Freeze Licenses from Anywhere

**Your Concern:** Managing IT issues across multiple campuses can be daunting. The IT team has to be physically present during contingencies to address the IT issues.

**Our Solution:** With Deep Freeze now on the cloud, its web console makes PC management across multiple campuses a cakewalk. To use the Cloud Connector, simply sign in to our web console and start managing your PCs from anywhere.

## SOFTWARE UPDATER

### Stop Worrying About Software Updates

**Your Concern:** Managing software update processes can be quite tedious. You can easily miss out on vital updates which could impact workstation security.

**Our Solution:** Software Updater makes installing and updating popular applications super easy by automating the update process and by letting you centrally manage it from a simple web console.

## WINSelect

### Simplified Desktop Policy Control

**Your Concern:** Locking down workstations is vital to ensure adequate system availability, but Group Policy Objects can be a constant technical headache.

**Our Solution:** WINSelect helps you control public access machines with just one click. Automatically launch specified applications at the start-up or block access to specific menu items or disable USB ports and disk drives.

*We have been using the Deep Freeze software for the last 7 years. The Anti-Virus software works great as well. This software has been a huge life savor when it comes to operating system maintenance.*

— Birmingham City University

*It is the best security solution for computer labs in high schools. If you are not using Deep Freeze, then you're wasting a lot of your time repairing children's PC problems rather than spending your time in teaching.*

— Jefferson County Public Schools

*WINSelect has empowered our Instructional Technology teachers at each site with centralized control of the computer lab and classroom computer functions.*

— Newburgh Enlarged City School District

*Insight is designed for classroom settings to allow a teacher to monitor and/or limit the computer usage of students. We use it for the same purpose but aim it towards our public-access computers.*

— Taylor County Public Library

*We've had a very positive experience with both Faronics and Power Save. We did review a number of competing solutions, and Faronics Power Save came in on top of all the competitors with a great set of features, within our budget, and the best bang for the buck.*

— Coeur D'Alene School District

## ANTI-EXECUTABLE

### Prevent Unauthorized Executables from Running

**Your Concern:** Worried about deterioration of your PC due to unauthorized or unwanted applications? Dealing with Zero Day executable malwares including spywares, rootkits, trojans and keyloggers?

**Our Solution:** Anti-Executable is an easy application whitelisting solution that helps you in licensign compliance. This solution protects users against Zero Day threats and provides a proactive layered security. Add or remove files on the fly and apply them to all relevant PCs in a few clicks.

## INSIGHT

### Free Your Class from Distractions

**Your Concern:** Technology in the classroom introduces many tempting distractions. How do you make students more productive while eliminating distractions?

**Our Solution:** Insight puts teachers back in control of the classroom. It promotes interactive learning with chat, broadcasting, testing and sharing features while eliminating student distractions from surfing the web to online gaming.

## PowerSave

### Save Energy on School and University Workstations

**Your Concern:** Saving on energy bills while managing IT infrastructure is a tall task. Tighter budgets often mean IT team needs to stretch their dollars even further.

**Our Solution:** Eliminate computer energy waste and significantly reduce power costs. Keep PCs running when users need them, power them down when they are inactive, and prove its rapid return on investment through energy saving reports.
