

## MY CLOUD DRIVE

ThawSpace in the Cloud

## Deep Freeze supports Dropbox and Google Drive to automatically save your work on Frozen computers

Faronics My Cloud Drive ensures you never lose your documents, especially on computers protected by Deep Freeze. Download only required documents and automatically sync them back to your cloud drive. Gone are the days of saving your work to network drives or on thumb drives.

For Deep Freeze customers, in the event the computer is Frozen, the service ensures the data will survive a restart until it is successfully uploaded to the cloud drive.

- ❑ **All User Data in Cloud**  
User data can now be directly saved to the cloud. Multiple users can use the same Windows credentials and still keep their data private.
- ❑ **Say Goodbye to External Drives**  
Access and retain user data on Frozen computers without the need for Thawed partitions, network drives, or thumb drives.
- ❑ **Reduce Expensive IT Costs**  
Eliminate the need to manage and backup user data on file servers and expensive network storage.
- ❑ **Secure Data from Theft**  
No data is retained on the local drive once a file is saved, ensuring that stored files are never at a risk of data theft.
- ❑ **Save Network Bandwidth**  
Mitigates the need to sync gigabytes of data by ensuring that only the files the user needs get downloaded.
- ❑ **Provide Authenticated Access**  
Compel users to provide their cloud drive credentials upon logging-in to the computer and optionally enforce specific email credentials.

### Did You Know?

Consumers will store more than a third of their digital content in the cloud by 2016. Worldwide consumer digital storage needs will grow from 329 exabytes in 2011 to 4.1 zettabytes in 2016.

- Gartner

Deep Freeze Cloud has been vital to our environment and my team could not do without it. I have and would recommend it to everyone. At the end of the day, our investment has been very worth it and a great decision.

My Cloud Drive eliminates the hassle of dealing with Deep Freeze ThawSpaces or creating Thawed partitions. It leverages Dropbox and Google Drive to empower end-users to automatically save their data to a supported cloud storage provider. In the event the computer is protected by Deep Freeze, the service ensures the data will survive a restart until it is successfully uploaded to the cloud drive. Users no longer need to carry thumb drives to save their work, they can instead automatically save their work directly to their preferred cloud drive.

Users will be presented with this screen upon logging into the computer to select their preferred cloud drive.
