

FARONICS
ANTI-VIRUS™

Comprehensive Protection from Malware and Security Threats

Keeping your organization safe from increasingly sophisticated security threats can be overwhelming.

Get the award-winning Faronics Anti-Virus security solution and rest assured that your IT assets are in safe hands. It not only provides exceptional virus, spyware and rootkit detection, but also includes firewall protection for comprehensive, rock-solid security.

Faronics Anti-Virus allows you to keep your computers infection-free, secure and fast.

▣ **Prevent Malware Attacks**

Best malware detection rate with the most advanced technology to combat millions of threats and detect the most complicated malware.

▣ **Thwart Network Attacks**

The built-in firewall provides protection against potentially devastating attacks that originate from the internet.

▣ **Light and Fast**

Incredibly powerful and ultra-fast at the same time offers the most efficient use of memory, disk and CPU usage with complete protection.

▣ **Manage with a Central Console**

Management of deployment and configuration is made possible via a single web-based or on-premise console.

▣ **Seamless Integration with Faronics Deep Freeze**

Out-of-the-box compatibility with Faronics Deep Freeze ensures virus definition files are always updated without having to "Thaw" the machine or put it in maintenance mode.

Did You Know?

Nearly **1 million**
new malware threats
are released every day.

- CNN

“Not only is Faronics Anti-Virus the only solution which is fully compatible with Deep Freeze, but it is also faster, more network efficient and more effective against malware.

- Ballston Spa Central
School District

Key Features

Comprehensive Protection

Comprehensive protection with antivirus, anti-spyware, anti-rootkit to combat millions of threats.

Firewall Protection

Built-in firewall can be used to restrict access of specific programs and protocols to certain networks, computers, and IP addresses.

Real-time Alerts

Real-time alerts in the Console, via Email or the Mobile App when a virus is found or when antivirus is running older definitions.

Detailed Reports

Reports on protection status, scan history, quarantined files, firewall network traffic and much more with an instant click.

Central Management

Available with an on-premise or hosted console to make deployment, configuration, and management of updates a breeze.

Deep Freeze Compatible

Integration with Faronics Deep Freeze ensures effortless anti-virus definition file updates on "Frozen" workstations.

Did You Know?

The average cyber crime incident costs

companies **\$12.7 million.**

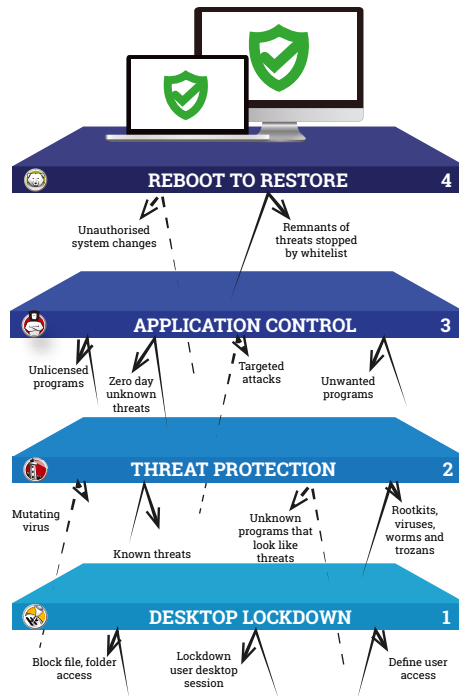

- Ponemon Institute

Faronics Anti-Virus has been a godsend with low impact on system resources and full integration with Deep Freeze. It's performed better than other antivirus solutions out there.

- Augusta County Public Schools

Layered Security by Faronics

Comprehensive layered security for defence against today's toughest threats.

❑ Faronics Deep Freeze

Patented reboot-to-restore technology to freeze your endpoints to the desired state. Restore from any unexpected changes with a simple reboot.

❑ Faronics Anti-Executable

Protect users from unknown threats such as zero-day attacks, mutating malware, advanced persistent threats and sophisticated attacks by allowing only authorized software.

❑ Faronics Anti-Virus

Top-performing anti-malware engine to closely monitor active apps and take instance action to ensure no malware goes undetected, without any false alarms.

❑ Faronics WINSelect

Provide only the intended Windows functionality and easily control end-users' Windows experience without having to deal with GPOs. Prevent unauthorized usage and close security gaps.
