

SOFTWARE UPDATER

Stop worrying about your software updates

Automatically install and update popular products

Faronics Software Updater is a part of the Deep Freeze Cloud platform which allows you to automatically download, install and update popular products across Deep Freeze and non Deep Freeze computers through a scheduled maintenance period, making management of third party apps a breeze.

Software Updater eliminates the hassle of installing and updating your popular products across your enterprise. Just sit back and relax.

- ❑ **Auto Update Popular Products**
Automatically install and update popular products across your managed computers.
- ❑ **Secure Maintenance Task**
Optionally lock the computer keyboard and mouse while performing software updates for complete security.
- ❑ **Extensive list of Software**
Manage updates of a growing list of 75+ frequently updated popular products.
- ❑ **Install or Upgrade**
Install new applications or choose to update only installed applications.
- ❑ **Advanced Options**
Disable desktop shortcuts and application notifications.
- ❑ **Detailed Reporting**
Generate detailed reports on application update status and activity logs.
- ❑ **Deep Freeze Integration**
Built-in mechanism to automatically handle the Freezing and Thawing of your Deep Freeze computers.

Did You Know?

While patching Windows OS on desktops monthly is indeed solved everywhere, but in the darkest woods of IT, patching 3rd party applications on a desktop remains a significant challenge for many organizations.

- Gartner

“Instead of having to go to every computer - thaw, install and freeze again - we were able to push out Chrome using Software Updater. It was a life saver!

- Gilchrist County School District
